TRAIN SERVICE AT STANDSTILL IN ROODHOUSE

FIREMAN WALK OUT FRIDAY AFTERNOON; TRAINS CANCELLED

Not Even Switch Engines are Running in the Yards—No Engineers Reported for Duty Last Night—Jacksonville Train Was Taken to That City by Regular Train Crew

BULLETIN

ROODHOUSE, Aug. 25.—It was learned from unofficial sources that Chicago & Alton brakemen walked out at 11 o'clock tonight. Conductors so far are not involved in the strike but it is thought they may take action at any time.

ROODHOUSE, Aug. 25.—This city is isolated tonight so far as railroad service is concerned following the walkout of eighty Chicago & Alton firemen at 3 o'clock this afternoon.

The men are members of the Greene County Order No. 6 B. of L. F. and voted unanimously to walk out as the result of the two bomb explosions here early this morning. One of the explosions occurred near the round house and the other near the Old Illinois hotel, across the tracks from the passenger station.

The explosions were followed by a fusillade of shots in the vicinity of the round house. The men stated after the meeting that they deemed it unsafe to work in view of the early morning happenings. Tonight not a wheel is turning in the railroad yards, all switch engines having ceased work.

Immediately after the firemen made their announcement the Brotherhood of Locomotive Engineers went into session in the Trainmen hall. No information was given out after the meeting as to what probable action the engineers would take. However, none of them responded to call for service this evening.

While Chicago & Alton railroad officials professed to take the alleged bombings as what they characterized a "huge joke" many citizens viewed the matter in a different light. Practically all of them are agreed that there were two heavy explosions and that they were caused by bombs and not by giant firecrackers. They said that firecrackers would not shake buildings and awaken practically everybody in the city.

Report Workers Quit

A report was current here that some of the non union men working on the night shift when the explosions occured left their work today and departed for other points. However this could not be verified.

One citizen who is in touch with the situation said that men were leaving and coming to work at the local roundhouse every day and that it was possible that some of the men of the night shift might have left today.

Citizens who spent several uneasy hours this morning without light were relieved tonight, tho they feel that the situation is still tense. Employes of the Central Illinois Public Service company began at an early hour this morning to search for the cause of the failure of the lights just before the explosion.

The feed wires that supply Roodhouse with light and power come from Louisana off the main line from the Keokuk power plant which supplies St. Louis and other cities south. A short distance west of Roodhouse a log chain was found thrown over the feed wires causing a short circuit.

The south bound Hummer due here at 11:30 o'clock went thru about 2 o'clock. The north bound Hummer was said to be tied up at Slater, Mo., no crew being available to take it further. No tickets were sold out of the local office for the south bound train.

The St. Louis Jacksonville accomodation due here at 9:35 o'clock last night arrived at 11:30. The regular crew brought the train here it being one of the understandings that all trains will be taken to their terminals. What would be done with the train was a problem yet unsolved. It was impossible to learn whether the train would remain here or be taken as far as Roodhouse and left there.

SOLDIER BONUS MEASURE TAKES SENATE'S TIME

No Action, However, Taken on Any Pending Amendments

(By The Associated Press)

WASHINGTON, Aug. 25—For two hours today the senate heard arguments for and against the soldiers bonus bill, but no action on any pending amendments. Senator McCumber, Republican, North Dakota, who was in charge of the measure made an effort to get an agreement for a vote before adjournment tomorrow but altho unsuccessful was hopeful that the bill could be passed early in the coming week.

Two additional amendments were offered today by Senator Moot, ranking Republican on the finance committee. One proposes that the amended house measure with its optional bonus plans be financed by a manufacturers' sales tax at the rate of one half of one percent for the first three years and one fourthh of one percent thereafter.

The other amendment was in the nature of a substitute for the pending bill with a paid up insurance plan in lieu of all other provisions, that too to be financed by a manufacturers sales tax but at the rate of one fourth of one percent. In each case the proposed tax would become effective next November first, and exemptions would be made in the case of all farm products and manufacturers doing a business of less than $6,000 a year.

In the debate today, Senator Reed, Republican, Pennsylvania, former service man declared in opposition to the bill. He said the plain fact was that the country could not afford to pay the bonus and added that, in army parlance, he did not propose to "pass the buck" to the president. Speeches in opposition to the bonus also were made by Senators New, Republican, Indiana, and Myers, Democrat, Montana. While Senator Bursum, Republican, New Mexico spoke in support of the bonus and his amendment uppers which the veterans would be paid in cash within the next five years.

AVIATORS ARE TAKEN ASHORE

CHITTAGONG, , British India Aug. 25.—(By The A. P.)—Captain Norman McMillen and Captain Maillens, who recently continued the attempt to fly around the world which was begun by Major W. T. Blake, were brought here today after having been afloat for three days and two nights. The men are in a weakened state, the effect of their long exposure.

There is little hope that the machine can be repaired and the flight may be abandoned.

SHOPMEN'S STRIKE DEVELOPES INTO FIGHT TO FINISH

Negotiations Blown Sky High and Endurance Test Starts

(By The Associated Press)

NEW YORK, Aug. 25—The rail strike today developed into a fight to the finish when peace negotiations were blown sky high.

Heads of the big five railroad brotherhoods acting as mediators between executives and striking shopmen in a final effort to effect settlement with individual roads after the association of railway executives as a whole had rejected the running trades' first peace overtures reported to the representatives of 77 roads this morning that the shop crafts had turned down a proposition made to them yesterday by the carriars. Negotiations then were sharply broken off and executives, strike leaders and brotherhood chiefs began leaving town, prepared for a test of endurance.

Before he departed for Chicago, Bert M. Jewell, spokesman for the strikers, asserted he believed the executives who had lingered for the parley on individual settlements soon would be enabled to bring to their hard shelled cvolleagues the railroad eituation in its grim reality.

"We shall be content to let the condition of equipment prove that railroads cannot operate with unskilled strikebreakers," declared Mr. Jewell, adding that "we can and will fight for our terms and for a nation wide settlement."

Labor leaders then dispatched telegrams to all parts of the country, calling upon strikers to renew the struggle with redoubled vigor.

The latest peace proposal, centering as was the case with all the others on the question of seniority, briefly was that roads interested in individual settlement would pledge themselves to find employment for all strikers not convicted of acts of violence, would not curtail pension rights "or other privileges," and would agree to submit to a commission of 10 brotherhood leaders and executives all disputes which could not be settled by direct conference.

The strikers who have maintained that they had had not authorized the big five to suggest individual settlements rejected this proposal with the explanation that it did not guarantee seniority rights to the men who might return on one third of the country's roads and would destroy the effectiveness of the strike being carried on the other two thirds.

Then from the mediating brotherhoods came the statement that they reluctantly notified all concerned that they considered further peace efforts futile and had nothing to suggest.

SAYS NEW LAW HAS CHECKED IMMIGRATION

(By The Associated Press)

WASHINGTON, Aug. 25—Secretary Davis in a statement today expressed belief that the three percent immigration law enacted a year ago to check the influx of aliens into the United States had outlived its usefulness and that "a radically different program for dealing with the immigration problem," must be evolved.

The restrictive act, Mr. Davis said, "served very well as a temporary measure under the conditions responsible for its enactment," but a "permanent policy should be upon an entirely different basis."

"Immigration stock which has played so important a part in the ulifting of America," Mr. Davis said, "is not forthcoming under the present program." Under the present passport and vise systems in effect thruout the world, he said, power is lodged in the hands of foreign governments to say who shall not migrate to this country. The secretary declared he was in favor of a plan which would empower Amherican officials at posts of immigration in lieu of vise requirements, to subject aliens to examinations involving mental, physical and other characteristics. Such a plan, he said, would in his opinion insure that "we get immigrants of a constructive type."

AMERICAN SOLDIER BELIEVED MURDERED

(By The Associated Press)

COBLENZ, Aug. 25.—Private Lester Irons of Toms River, N. J., a member of a provisional military police company was found dead today in a pool of blood outside the garage of Major General Henry T. Allen, in command of the American forces on the Rhine. Private Irons had been on guard duty at this post last night.

Condensed Telegraph News

(By The Associated Press)

Sydney, N. S.—The Nova Scotia Coal strike was settled tonight according to an announcement given out by representatives of the striking miners and the British Empire Steel corporation following several days' conference.

Washington—Employment records in twelve major industries of the country during July disclosed that in seven of the industries there was an increase in the number of persons employed and a decrease in five, the department of labor announced tonight.

Berlin—Prices are soaring in consequence of the collapse of the mark. Comment on all sides reflect widespread disquietude and the urgency of remedial measures.

Kansas City, Mo.—Chicago & Alton firemen at Slater, Mo., have announced that they will remain away from the company's property "until the guards at stations are changed to our satisfaction," according to word received here late tonight.

West Frankfort, Ill.—The first death in Southern Illinois mines since the miners returned to work Wednesday, occurred here at noon today when falling coal crushed Doe Bill to death. The accident occurred in Mine No. 9 of the Old Ben Coal corporation and the colliery shutdown this afternoon out of respect for the dead miner.

Grand Rapids, Mich. —Melvin E. Trotter, superintendent of the city rescue mission and nationally known evangelist was granted a divorce today from Mrs. Lottie M. Trotter, whose suit for separate maintenance was dismissed at the same time is "broke" but plans to start all over again he stated tonight.

APHASIA VICTIM RETURNS TO HOME AFTER 11 YEARS

St. Paul Man Returns Home After Many Years of Wandering

(By The Associated Press)

ST. PAUL, Minn., Aug. 25.—William J. Law for years believed by his relatives to be dead but guided by the same whimsical fate which lured him away eleven years returned to his home here three days ago and altho he insists that he is "Jack Murphy," has accepted his family because they look honest.

Law, according to physicians is a victim of aphasia. Eleven years ago when he was 26 years old he was employed as an apprentice machinist and he was apparently strong both physically and mentally. One night he disappeared and after three years of searching his family gave up the hunt and believed him dead.

Tuesday he appeared at the home of his aunt Mrs. R. S. Rasey and saying he was hungry, asked for work. Mrs. Rasey recognized him.

When taken to the home of his mother, he failed to recognize her and she was so affected that a stroke of paralysis resulted from which she is recovering today.

SENATOR KENDRICK CRITICIZES TEA POT DOME OIL LEASE

Says it Strengthens Monopolistic Control of Oil Industry

(By The Associated Press)

WASHINGTON, Aug. 25.—Declaring that the recent leasing of the Tea Pot Dome naval oil reserve in Wyoming strengthened monopolistic control of the oil industry, Senator Kendrick, Democrat, Wyoming, told the senate in a speech late today that the contract which turned over the field to Sinclair Oil interests was 'vicious and criminally wasteful" and that it would eventually plague and even damn the administration.

The terms of the lease the senator said were not only improvident but would cause a "shameful and unnecessary destruction" of the final naval oil reserve. He added that it would not promote competition as claimed, but, in a time of huge over production aid in turning to private interests the millions of dollars which the government would realize were the property to have been properly handled.

PERMITS ENTRY OF CABLE AT MIAMI

Washington, Aug. 25.—President Harding today signed a license authorizing the Western Union Telegraph company to land and operate at Miami Beach, Fla., a cable extending there to Barbadoes where it connects with the line of the Western Telegraph company, Ltd., a British concern to Brazil.

Announcement to this effect was made after official notification had been received that the Argentine government had accepted the renunciation by the Western Telegraph company of its monopoly rights in that country.

SEVEN PASSENGERS INJURED IN CRASH

Syracuse, N. Y.—Seven passengers were seriously injured tonight when a trolley car ran wild down a hill and was wrecked when it left the rails and crashed against telegraph poles three city blocks distant from the point where the car got beyond control. The accident occurred as a severe rain and electrical storm was passing over the city.

MAN SWINDLED BY CONFIDENCE GAME AVENGING NEMESIS

J. Frank Norfleet Spending Life Hunting Down Confidence Men

(By The Associated Press)

DENVER, Colo., Aug. 25—J. Frank Norfleet of Hale Center, Texas, one time victim of the Joe Furey gang of confidence men and who has devoted much of his time in hunting down men engaged in swindling others, furnished information to District Attorney Vancise that led to the arrest last night and today of 33 persons alleged to have operated confidence games in Colorado, Florida, Cuba and elsewhere.

Norfleet, discussing his career as a "man hunter" tonight said: "I have never known a crooked man or dishonest woman in my life, until the day Furey took me for a sucker. We—ma, my little boy, Pete and I—lived on a ranch at Hale Center, Texas. Pete was ambitious and wanted to go to school. So ma and I who had saved quite a little pile, agreed he should go. We picked out the school at Plainview. After settling sonny I went on to Fort Worth."

It was there he met Furey and was first swindled. After telling of this affair in which according to Norfleet's story he finally was "frisked" of every cent he owned, Norfleet continued

"You know I promised ma I'd quit this man hunt and go back home and live at peace. But somebody's got to clear the earth of these vermin. They prey on the innocent. I know 24 men in Texas and elsewhere who have been robbed, brokenhearted and some have died because of the villainy of these confidence men. Somebody's got to fight them to a finish and I'm the man that's willing to do it.

"Furey's dead, Gerber's in prison, Ward's in a suicide's grave, but there's still a master mind at work and sooner or later I'll get his address and him—that's Charles G. Harris, alias W. B. Spencer, and another almost as equally clever, Reno Hamlin."

PLANNING NEW RAID ON ALLEGED RADICALS

(By The Associated Press)

CHICAGO, Aug. 25—Department of justice agents today were reported to be planning a new raid on alleged radicals as a result of the arrest of 17 persons when a meeting in Berrien county, Michigan was raided. The officials are said to have the names of two score other persons who attended the Michigan meeting. William Z. Foster was araigned today on a warrant charging him with criminal syndicalism and at the request of the state the case was continued until September 12 at which time it is expected the Michigan authoritiesl will be prepared to take action. Joseph Spolansky, federal agent said today he had obtained evidence that Foster attended the Michigan meeting. This foster stoutly denied when arrested.

SOVIET MINISTER MAY COME TO U. S.

Riga, Aug. 25—George Tchtcherin, the foreign minister is undertaking a special mission to the United States, according to reports received here from sources in Moscow. It is officially announced in Moscow that the soviet government has signed a contract with the Big Siemens-Schuckert firm in Berlin under which the Germans will supply goods and credits to the soviet. Attention is called by the soviets that this is the first case of a foreign firm graning Russia credit.

GOVERNMENT MAY TAKE OVER ROADS AND COAL MINES

Will Seek Legislation Unless Radical Change Soon

(By The Associated Press)

WASHINGTON, Aug. 25—The administration will seek legislation from congress authorizing the taking over of certain railroads and anthracite mines if there is not a radical improvement in the industrial situation within a few days it was indicated tonight after Senator Cummins, chairman of the senate interstate commerce committee and Attorney General Daugherty had conferred with President Harding for more than an hour.

Senator Cummins said after the conference that the anthracite operators and miners would be given one more opportunity to settle their differences.

"If there isn't a settlement in a few days," he said, "I will introduce a bill authorizing the government to operate the anthracite mines."

Likewise, he said the railroads would be given a "reasonable" time in which to demonstrate thheir ability to furnish adequuate service and that those unable to do so would be taken over. Senator Cummins expressed confidence that legislation for both purposes could be rushed thru congress without delay. It was indicated that consideration of these steps would not operate to interfere with proposed legislation now pending and designed to curb profiteering in coal.

The conference followed a survey of the whole situation at the regular cabinet meeting and the termination without result of the conference at New York between railroad executives and union officials it was stated that the conference would be resumed tomorrow. Before tonight's conference the ground work had been laid thru administration overtures for a further meeting before the parties to the anthracite dispute to be held next week at some point in Pennsylvania. It was indicated that certain proposals would be made which it would be hoped would bring about an adjustment of the difficulty.

The bituminous situation did not enter into the discussion, the conferees agreeing that this industry gradually was getting back to normal.

Ability to Move Coal Important

The ability of the roads to move coal from the mines, in the view of officials, constitutes an important element in this connection and may prove a determining factor as the necessity for federal operation of carriers.

While further developments in both the coal and rail situaiton are awaited, measures designed to imminize profiteering in both bituminous and anthracite will be pressed in congress. Differences of opinion have developed between the executive and legislative branches as to how far the government should go in its effort to protect coal consumers from profitees. Executive officers handling the situation have requested legislation granting authority to curb profiteers, not only thru control of the mining of coal in interstate commerce, but also thru the purchase and sale of this fuel.

Congressional leaders having charge of such legislation are loathe to have the government enter the coal market and no such authority is proposed in the bill introduced yesterday by Senator Cummins and awaiting action tomorrow by the interstate commerce committee.

SEARCH STARTED FOR W. W. TALCOTT

CHICAGO, Aug. 25—At the request of relatives the police tonight started to search for W. W. Talcott who brought charges against Albert J. Moore, head of the life institute and a healer of broken hearts and homes, after Mrs. Talcott became a member of the cult.

Following a hearing of the case against Mr. Moore, who was charged with deception, Mr. Talcott had his wife's sanity tested and she was found to be sane. Relatives said he disappeared yesterday after seeming despondent and they feared he was an unidentified man who jumped into the lake yesterday.

Mr. Moore was summoned to appear before E. E. Alden, chief United States revenue agent for the Chicago district, next Monday. Mr. Alden said a check of Mr. Moore's accounts will be made to determine if he included in his income tax reports contributions to his institute which witnesses testified making during recent hearings in which Moore was chargee with deception.

GOVERNOR SMALL ASKS FUEL ADMINISTRATOR TO FIX FAIR PRICES

Tells Him That There Must Be No Profiteering in Coal in Illinois—Quotes Letter Received from Secretary Hoover—Expects Cooperation from Operators and Dealers

(By The Associated Press)

SPRINGFIELD, Aug. 25.—There must be no profiteerout o feighty Chicago & Alton firemen at 3 o'clock this Fuel Administrator Medill in a letter in which he incorporated a telegram from Herbert Hoover on the question of fair prices. "There is no excuse for extortionate prices,' the governor said. "Business must not be further embarassed."

He urged upon Mr. Medill and his fuel committee to immediately establish a fair price.

A meeting of the fuel committee, the coal operators and the public has been called for next Wednesday in Chicago to discuss the matter of fair prices, Mr. Medill announced tonight, but he said he had no regulatory authority.

"Everyone knows we have no authority to fix prices. We can only ask them to be fair," he said.

Letters have been sent by Mr. Medill to the Illinois Coal Operators Association, the Wholesale and Retail Dealers Association and the Association of Commerce inviting them to attend the meeting.

The committee will meet Wednesday morning and in the afternoon the discussion will be taken up at a public meeting with the operators.

Hoover's message quoted by Governor Small said governors of Kentucky, Pennsylvania, West Virginia and Tennessee had fixed temporary maximum prices. He urged the Illinois executive to do the same. Hoover said he was asking for more authority to enforce fair prices in interstate comerce but pointed out this authority of course would ont extend to business within the state.

Governor Small's letter then continues:

"I desire to urge upon you most earnest consideration of this question and I know that the great rank and file of Illinois' citizenship expect from the operators and the dealers of the state hearty cooperation.

"There must be no profiteering at this time. There is no excuse for extortionate prices. Agreement between operators and miners has been reached on the old basis. There has been no resultant increase in price of production. The mines have been opened none too soon. Cold weather and sheer necessity are ont far distant. Business must not be further embarassed but, more important still the health and welfare of Illinois homes must be safeguarded.

"The burdens of our people, most of whom toil for a living, are already heavy. It is the duty of all of us to see that insofar as possible they are decreased rather than increased. I am sure that this is your realization as well as mine.

I cannot but express the hope, yes, and belief that you will have the cooperation of the operators and dealers. Their one great interest must be fair dealing with the people whom they serve. Equally true, the greatest mistake they could make would be any attempt in this crisis to charge unfair prices.

"So may I not urge you again immediate and earnest consideration of Mr. Hoover's suggestion that a fair and reasonable price, based on cost and fair profit, be established.'

CONVICT KILLED THREE CAPTURED IN WILD CHASE

Four Men Who Escaped from Prison Are Captured

(By The Associated Press)

RAPID CITY, S. D., Aug. 25.—Hailed at the borderland of the Black Hills, four escaped convicts from the Sioux Falls penitentiary ended their terrorizing drive across South Dakota about fifty miles east of here today with the death of one of their number and capture of the other three.

Their wild flight which began August 17 when they knifed a deputy warden, kidnapped the warden and escaped in an automobile was marked in the final hours by two clashes with posses as the convicts sought vainly to reach freedom in the fastness of the Black Hills. Thru three counties they streaked today probably mortally wounding a county official and injuring two others in a clash near Stamford and finally bringing up to a last stand between Wall and Creighton, when a crack shot from a sheriff's rifle toppled the driver of their car and sent it into a ditch.

The driver was instantly killed the other three convicts scurried into a corn field along the road but with the sheriff's party reinforced they soon were routed out and captured tho not until they had put up a fight in which another of their number was shot and wounded.

Henry Coffee alias Hickman, a negro, was the convict killed, another, Joe Foreman, recognized leader of the gang was seriously wounded. The two convicts taken uninjured are Joe Teer and J. E. King. All were sent to prison upon conviction of grand larceny. It was Deputy State Sheriff Wilson who fired the shot that ended the flight of the bandit car and it was under his direction that the convicts were fought and captured.

Participating in the finish of the most sensational chase in recent state history were airplanes which circled overhead like vultures ready to swoop down on their victims and heavily armed posses headed by state and county officials.

TAMPICO VISITED BY BIG FIRE

Tampico, Mexico, Aug. 25.—The business district here was swept by fire this morning. Three persons are known to be dead and 12 persons were seriously injured. Property damage estimated at more than 5,000,000 pesos was caused. The origin of the fire is unknown.

Twenty seven commercial house- were destroyed by flames while several others were torn down in an effort to check the fire's spread An explosion of chemicals in a drug store while firemen were inside caused the deaths.

A THOUGHT

So we labored in the work: and half of them held the spears from the rising of the morning until the stars appeared—Nehemiah 4:21.

Work, according to my feeling, is as much of a necessity to man as eating and sleeping. Even those who do nothing which to a sensible man can be called work, still imagine that they are doing something. The world possesses not a man who is an idler in his own eyes—W. Von Humboldt.

The Pittsfield high school is now carrying large display advertisements in the Pike county papers, enumerating its advantages of equipment and courses. This is something new in high school enterprise.

The Springfield street car system is trying out the monthly ticket plan and rides on this basis will be sold at the nickel price Perhaps some such plan as this may be necessary to bring to pass the much talked about five cent fare for Chicago.

High compliment has been paid to Samuel Gompors and Eugene Debs as leaders of organized labor in America by the movement of the Russians Internationale to bring about their overthrow. Agents for the government seeking evidence against communists recently found proof of this effort amongst documents seized.

Mr. Gompers and Mr. Debs are often rated as radicals, but they are mild in manners and methods by comparison with the reds of Russia.

A lot of talk is going the rounds about the big increase in coal price that the Illinois operators have authorized. It is charged that the operators propose to increase the price of coal sufficiently to make up for all the losses sustained during the past five months of the shutdown.

This may be true, but it will be time enough to condemn the operators when the definite facts are at hand. Meanwhile Gov. Small has suggested a conference of representatives of the operators, retail dealers and the public to be held next Wednesday, when questions relating to price will be discussed. The operators should be heard from definitely before the public condemns them.

What a superb thing it would be if we were all big enough to see no slight, accept no insult, cherish no jealousness, and admit into our hearts no hatred—Albert Palmer.

THE FARMER MIGHT DO IT

The Prairie Farmer makes this comment in the present industrial situation that is worth thinking about:

"Occasionally someone suggests that a big farmer's strike would clear up the whole situation. There is a much better way to do it than that. That is to organize to market our products in a business way. When we do that there will be no more glutted markets or ruinous prices.

"There is something abhorrent about the thought of striking, anyway.' Strikes mean a stoppage of production and a dead loss to everyone. What we want is production in plenty, with simplified systems of distribution that will get those products to the consumer at the least possible cost. There is a better way than strikes to get fair prices for farm products. There is a better way than strikes to settle labor disputes.

"Maybe the time will come when representatives of farmers' organizations will sit in with the union leaders and the employers before a strike is called. The farmers might tell them something like this—"You are going to get together and settle this question sometime. You can do it before a strike just as well as afterward. Then why make the public suffer the great loss and inconvenience that a strike will cause? Gentlemen, there isn't going to be any strike. The day the strike is called we will lock up our warehouses. If you are bound to fight among yourselves, you will do it on a empty stomach."

There wouldn't be any strike."

CURSE OF YOUTH

(By NEA Service)

Is the barefoot boy a vanishing institution in our cities? A traveling salesman sends this letter:

"I make hundreds of towns and cities, selling my goods, and it strikes me that each year I see fewer and fewer barefoot boys. Of course, there still are many paddling about without shoes particularly in smaller towns. But I am wondering if the time is not far off when the barefoot boy will be a curiosity in the big cities. You can travel miles now without seeing a lad with stubbed toe bound up in a wad of cloth. When I was a boy, a youngster wearing shoes and stockings in summer was so scarce that people when they saw one wondered what was wrong with him."

Many of the rest of us have noticed the gradual passing of the barefoot boy. City pavements are too hot for the unprotected foot. It is a big loss of youth. How big a loss, is known only to the grown-up who in memory has the delightful recollection of bare feet paddling thru thick August dust of a country road or wiggling deliciously in mud puddles and ruts after a rain. "Them were the days."

The alleys are passing. So are the tall back fences. So are the huge back yards. A garage and a strip of half-dead grass the size of a living-room rug are all that separate the typical modern city house from the neighbor on the street in the rear. Youth on the pavements, dodging the auto maniacs who curse them and "wonder why parents don't keep their brats off the streets."

We grown-ups talk a lot about the discomforts of metropolitan congestion. But it is youth that is footing the lion's share of the bill. Another 50 years of "progress" and there will not be any such thing as boyhood in the cities. Babies will be handed radio outfits and other pacifers when they begin wondering what's beyond the walls of the house.

BERTON BRALEY'S DAILY POEM

A Tonic

By Berton Braley

WHEN life seems devoid of all color,
And totally lacking in zest,
When things "simply couldn't be duller,"
I go on a bit of a quest,
And down where the slums are aquiver
With heat one can scarcely abide,
I fill up the seats of my flivver
With children—and go for a ride.

WITH six, eight, or ten of them, maybe,
Or all that the flivver will bear,
From Twelve-year-olds down to the baby,
I take them out into the air;
And as we drive on where the breezes
Can fan them for mile upon mile,
Each prospect they gaze upon pleases,
And nothing whatever is vile.

SO, hearing their laughter and chatter,
And seeing their faces aglow,
I wonder what could be the matter
To make me think living was slow!
Their bliss ends my whining and pouting,
And lays my cares up on the shelf,
And while they're enjoying their outing
I'm having a picnic, myself!

RULES FOR GOLF TOURNEY ANNOUNCED

Consolation Tournament of City Golf Championship Fight Will Be Handicap Affair.

The consolation tournament, to be held in connection with the city championship tournament, will be attractive to beginners as well as the older players because it will be a handicap affair. A large number have already entered knowing that if they fail to qualify for the championship fight they can play in the "consolation." By turning in their scores the handicap committee will give them a proper handicap. All those who desire to enter the "Consolation" may do so without playing their qualifying round if they are willing to enter as scratch players, that is without a handicap.

Four prizes will be given in the consolation match one for winner, runner up, low gross, and low net score. Qualifying rounds will be held Friday and Saturday, August 26th and 27th. Entries should be given to Jack Keywood, Nichols Park Pro. Sixteen are to qualify for the championship matches.

The greens are now in excellent condition, and the fairways are dry and hard. Many long drives have been made the last few days and it is expected that long drives will be a feature of the tournament.

CHAUTAUQUA AT WINCHESER CLOSES

Final Day's Programs Were Especially Interesting to the Large Audiences—Farm Bureau Program Today—Other Winchester News.

Winchester, Aug. 25.—Friday was the closing day of the 1922 chautauqua and the afternoon and evening programs were enjoyed by large audiences. The Grossman orchestra gave a program of high class numbers in the afternoon and also appeared in the evening. Miss Maude Willis, impersonator and reader, gave a play reading in the afternoon which greatly pleased the audience. Miss Willis has a charming personality and talent of a very high order.

"The Romance of Big Business" was the theme of Rev. Father John Cavanaugh's address in the evening, and it was the general concensus of opinion that this was one of the best lectures heard during the assembly. Rev. Father Cavanaugh is an orator of unusual ability and he held the interest of his audience Friday night to an unusual degree.

The chautauqua management is pleased with the outcome of this year's assembly and with the prospects for next year. The task of securing subscriptions for next year was taken up again Friday and the response was liberal.

Farm Bureau Program.

The Scott County Farm Bureau will be in charge of a program which will be presented Saturday in the chautauqua tent. All are cordially invited to attend, and no admission will be charged. At 2 o'clock there will be music by the Winchester orchestra, followed by an address of welcome by Dr. W. R. Johnson, president of the chautauqua association.

The response will be by Clyde North, president of the Scott County Farm Bureau. Then will come an address by R. B. Doan of the American Farm Bureau Federation, who will tell briefly what the organization is doing in the interest of farmers. The closing address will be by M. L. Hunt on "The Co-operative Marketing of Grain and the Operation of Co-operative Elevators."

There will be a pony show in the lot adjoining the tent from 3:30 to 4 o'clock and in the evening a motion picture film, "The Homestead," will be shown.

Special Services Sunday.

The chautauqua tent will be in use Sunday afternoon, when there will be a program in charge of Rev. Mr. Elmore and Rev. Carl Corrie. Music will be furnished by home talent and there will be brief addresses. In the evening Father O'Mullane will make an address.

News Notes.

Among the visitors at the chautauqua Friday evening were Rev. Father Flynn of Murrayville, Rev. Father Hennessey of Beardstown, Rev. Father Cusack of Carrollton and Rev. Father Donahue of Jacksonville.

Dr. Otis Edmonson arrived Friday from Clinton, where he has been with his father, M. B. Edmonson, who is very ill. Dr. Edmonson is now enroute to his home in Kansas City. He reports his father in a very grave condition.

Miss Cyres Green of Huntville, Ill., is here for a visit with her sister, Mrs. Henry Pieper and family.

Mrs. Laura Funk of Exeter has been a guest here at the homes of Thomas Kirkman and Fritz Haskell and also attending chautauqua.

Mr. and Mrs. Roy Phears and daughter left Friday for an auto trip to Wisconsin.

Mrs. Charles Sibert has returned home from Dubuque, Iowa, where she was called by the serious illness of her daughter, Mrs Otis Waller, who is now very much improved.

NOTICE

The choice spaces for auto parking in front of the home stretch will be auctioned off Saturday afternoon at 2:30 o'clock in front of the court house.

METHODISTS GATHER IN CELEBRATION

Morgan County Methodists Gather In Celebration of One Hundred and First Anniversary of Methodism In County—Fine Address Heard from Rev. F. H. McCarty.

The Methodists of Morgan county gathered three hundred strong at Nichols park yesterday for the 101st anniversary of the founding of Methodism in Morgan county. The Methodists were not alone in the celebration as members of all the other Protestant churches were represented.

In the morning at eleven o'clock the assembly enjoyed a musical program given by the Merritt band. At noon dinner was served cafeteria style, each family basket helping load down the table of good things.

After dinner the meeting of the day was opened by a prayer by Rev. W E. Spoonts. Following this Henry Ward Pearson and Albert C. Metcalf, both of Illinois Woman's college, led the assembly in singing the following songs: "America," "Battle Hymn of The Republic," "All Hail the Power of Jesus' Name," and "Blest Be the Tie That Binds." Miss Beulah Tull then favored the audience with two songs that were much appreciated.

Rev. E. L. Pletcher, the chairman of the meeting, then introduced the speaker of the day, Rev. F. A. McCarty, pastor of First M. E. church of Bloomington and formerly pastor of Centenary church in this city.

Rev. McCarty Speaks.

Rev. McCarty began his address with a statement of his delight in again addressing an audience of Jacksonville and Morgan county people, he stated that he had spent more years here than on any other pastorate and that our city always seemed like home to him.

The subject of the address was, "The Debt That We Owe the Pioneers." He stated that Jacksonville has been a pioneer in every movement for the good, that our combination of southern and eastern people had embodied in their blood the high ideals of the east and the political ability of the south "That," said he, "is the reason that these numerous state institutions are here today. The pioneer fathers of Morgan county had the pep to go after them. That is one of the debts that we of the present owe the men of the past.

"Jacksonville was not laid out for a manufacturing town by its founders. It was planned to be just the sort of a town it is; a town of fine colleges and churches, building men and women for the benefit of the rest of these United States. Today every one is too apt to think of the dollar as the standard of value. That is what is wrong with the world. We must get back to the old standard of judging by manhood and womanhood. That is what is wrong with capital and labor. They are each judging on the standard of the 'almighty dollar.' The pioneers judged men as men and not by the popular modern method of how much property they have."

After numerous educational and entertaining lights on the early pioneer fathers and mothers, he closed his address with the statement that the churches and public opinion are what control the world. If the people as a whole but say to the striking men who are causing harm to the great body of people, "Settle your troubles and go to work." They will go to work for they can buck the people of this country.

Following Rev. McCarty's address various athletic contests were engaged in under the direction of the committee on sports composed of Fred Scholfield, chairman; Harry Walker, Fred Hooper and Rev. W. E. Spoonts.

Amos Swain was the chairman of the general committee that had charge of arrangements for the day.

A list of the various sports and the winners is as follows:

Tug of War—Preachers vs. church officers. Won by church officers.

Pack Race—First, Ralph Heaton, Harold Jewsbury; second, John Mawson, Fred Masters.

Kellogg's SHREDDED KRUMBLES deliciously flavored WHOLE-WHEAT

Getting Real Joy Out of Life!

Men and women who can "get close to the ground" and romp with the youngsters; who can hike, vault fences, make long swims—men and women who *stand out physically and mentally* prove the result of proper, balanced nourishment! *They are equipped to enjoy life to the limit!*

Give children Kellogg's delicious whole-wheat KRUMBLES—with the full, enticing whole-wheat flavor for the first time—and make them thrive and grow big and robust and red-blooded! Whole-wheat KRUMBLES contain in correct proportion every vital food element.

Whole-wheat KRUMBLES are a necessity to offset the denatured, bleached-out foods that flood our tables in the guise of "palate-ticklers." KRUMBLES make bone and muscle and red blood! They rebuild puny, undersized, underfed striplings and send them into the world as rugged men and women!

As fathers and mothers, do you realize what KRUMBLES will mean to your children, to yourself?

The only whole-wheat food with a delicious flavor!

Oil Cook Stoves

During these hot summer days an oil cook stove is indispensable, and if the price of coal soars this winter as now seem likely, it will be a matter of economy to burn oil instead of coal the coming winter, too. We have a well selected line of one, two, three and four hole oil stoves. We invite your investigation.

CHARGES CUMMINS WITH CONNIVING TO DEFEAT HIM

Senatorial Candidate in Iowa Makes Statement in Address

(By The Associated Press)

DES MOINES, Iowa, Aug. 25—Charges that Senator Albert B. Cummins and Clyde L. Herring, Democratic candidate for United States senator are in a political partnership to defeat Smith W Brookhart, the Republican nominee were made by Mr. Brookhart in a speech at the Winnebago County Fair today.

"Judging by the letter read by Herring in his speech at Marshalltown recently, the two appear to be most intimate friends" Mr. Brookhart said, "and if the letter is authentic Senator Cummins and the Democratic candidate appear to be carrying on a campaign together against the Republican candidate nominated at the primary. The letter, which Herring says was written by Senator Cummins shows that the Democratic candidate knew where to go for help in his campaign. It also proves the hypocrisy of Herring's alleged opposition to the transportation act and shows that his sympathies are with the business interests that want to continue high freight rates that are crushing the farmers and consumers."

SUCH PAINS AS THIS WOMAN HAD

Two Months could not turn in Bed Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chills and fever and such pains in my right side and a hard lump there. I could not turn myself in bed and could not sleep. I was this way for over two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly until all the hard pains had left me and I was able to be up and to do my work again. The hard lump left my side and I feel splendid in all ways. I know of many women it has helped."—Mrs. G. RICHARDSON, 4640 Orcas St., Seattle, Wash.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after "trying everything any one told me" had failed.

If you are suffering from pain, nervousness and are always tired; if you are low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound.

FARRINGTON HAS OPPONENT FOR JOB

(By The Associated Press)

SPRINGFIELD, Ill., Aug. 25—Frank Hindmarsh of Riverton announced today he would be a candidate for president of the Illinois Miners' Union, opposing President Frank Farrington. Mr. Hindmarsh ran second in last year's race for the office.

The names of J. M. Zimmerman and Edward Carylon, both of Springfield, were announced as candidates for the international board of the United Mine Workers of America. Zimmerman is now at international headquarters as an organizer. Ed Dobbins of Belleville, present international board member, is a candidate for re-election. He announced some time ago.

Richards, Lenore & Treat, Nola "Quantity cookery; Cooking and Menu Planning for Large Numbers."—This book "Quantity Cookery" is the first one of its kind ever published and is very new. The authors are assistant professors of institutional management in the Home Economies department of the University of Minnesota and are managers of the dining hall. The aim of this book is to furnish tested recipes and practical help on the planning of menus to the managers of cafeterias, hotels, tea-rooms, and in the dining halls of schools, colleges, clubs, industrial plants, hospitals and institutions of various kinds. The book is also designed to serve as a text-book in quantity cookery. It contains lists of food to be used and season charts. Suggestive combinations are worked out and many ways of using left-overs are mentioned. Standard menus for a cafeteria for thirty days are given which are carefully arranged to avoid monotony. They may be repeated at the end of that time with some little difference according to the change of seasons. The book includes menus to tea-rooms which serve not more than one hundred also for restaurants that serve six hundred people at each meal. The book also contains over two hundred recipes all of which have been thoroughly tested a number of years in the class room and are of great value. This book will be of great value to churches, clubs and restaurants and cafeterias. Get it at the Public Library.

Snodgrass & Camp. "Radio Receiving for Beginners." This little book answers the question—How can I receive radio It tells in a few simple words how to select, install and operate radio receivers, describes the equipment, from the simples to the most efficient. It explains each instrument so that a school boy can understand it. No long study of electricity is necessary to understand the essential parts. The book is very valuable to the beginner in Radio. Get it at the Public Library.

Evarts, Hal G. "The Passing of the Old West." In this book the passing of the old west is unfolded—the disappearance first of the beaver, then the buffalo, then the wild pigeon, next the timberlands and lastly the inroads made on the wild life of the Yellowstone Park by the rapacious hunters who lay in wait along the northern border until the last band of elk had been shot. It is an endictment in story form of the triumph of the dollar seeking over the lovers of nature and animal life. This is a wonderful story of the passing of a part of America's great heritage, of our lost possibilities. The author has the deepest sympathy for the wild creatures, and appreciation of the beauties of nature. Aside from its appeal as a story, this account of our failure to preserve the wild life of Yellowstone Park, will strike a responsive chord in the hearts of the readers. It is the most powerful presentation of the case from conservation that has been published. The book has an appeal which will reach all readers. Get it at the Public Library.

BIG FARM TRACT NEAR ALEXANDER SOLD

It was stated yesterday that Walter McCormick of this city is to become the owner of 360 acres of land near Alexander. This is a part of the land transferred March 1, 1921, by Felix E. Farrell and E. E. Crabtree, to J. W. Decker. The remaining 163 acres of the land originally sold to Mr. Decker is to be transferred to Mrs. E. B. Conover.

Some months after the purchase of the land Mr. Decker sold a half interest to E. B. Conover. Subsequently the troubles of the Conover Grain Co., developed and the land passed into the hands of W. A. Orr, referee in bankruptcy. Mr. Orr, it is understood, has recently entered into an agreement for the sale of the farm to Mr. McCormick and Mrs. Conover. Mr. McCormick's purchase carries with it the extensive farm improvements.

SCENES OF GREAT SORROW WITNESSED IN DUBLIN FRIDAY

Ensue as Long Lines of People Pass Bier of Michael Collins

(By The Associated Press)

DUBLIN, Aug. 25.—Scenes of great sorrow were witnessed thruout today in the city hall as long lines of people passed the bier of Michael Collins, the free state comamnder-in-chief. A pathetic scene took place at midday when the city hall was closed for a time to the public and relatives and lose friends of the dead general were admitted to pay their respects.

Sean Collins, a brother, broke down completely and threw himself across the body. The silence in the mortuary chapel was broken by the sobs of the mourners and the low voice of the priest in toning words of consolation.

The free state government has declared Monday the day on which General Collins will be buried a day of general mourning.

BLUFFS FARMER HAS WILD RIDE ON RAKE

Bluffs, Ill., Aug. 25—Tom Smith, son of Mr. and Mrs. T. J. Smith, south of town, met with an accident Tuesday, which might have easily proven very serious. Tom was raking hay in the field for his father, when the team which he was driving became frightened at a cow which was in the same field and started to run. Tom lost his balance on the seat of the rake and was thrown to the ground and landed behind the team and in front of the rake, and was dragged a considerable distance. He was being pulled along by the steel teeth of the rake, and he had presence of mind enough to think of dragging himself up so he could get hold of the trip on the rake, which would cause the teeth to raise and pass over him, but he was doomed to disappointment in this, because just about the time he had reached a point where he could accomplish his purpose he was struck in the head by the flying heels of one of the horses, which caused him to lose all interest in events which transpired immediately thereafter.

Dr. J. H. Stewart was called and dressed the wounds of the injured man. The doctor says he is pretty badly scratched and bruised, but the worst wound is on the knee where one of the steel teeth of the rake entered the flesh and struck the bone and evidently bounded out again from its own spring.

OIL SAND SHOWING VERY SATISFACTORY

Another Rig Coming Soon to Drill on Rhodes and Moorehead Lease—Next Well on Cleary Land.

Messrs. Rhodes and Moorehead are greatly pleased with the Morgan county oil prospects. Samples of the Pennsylvania sand taken from the second well yesterday show it of excellent oil bearing quality and the operators believe the sand stratum is about 15 feet in depth.

It is expected that pumping of the well will begin today and the exact capacity of the well will then be definitely determined.

The development thus far is sufficient to interest other operators and a rig owned by a well known firm is to arrive in the early part of the coming week and will put down several holes on Rhodes & Moorehead leases.

The interest that the local showing has made is shown by a telephone call received by the Journal from the Aurora Star. The message was to the efect that the Whitney Well Co., of Chicago is ready to ship two rigs to the local field the moment that the finding indicates that oil is here in any paying quantity. The next well to be put down by Rhodes & Moorehead will be on Cleary farm

INCONVENIENCE FOR TRAVELERS

Misses Marjorie and Betty Black, who have been visitig relatives at Hastings, Nebr., have had an interrupted journey home. A telegram received by Dr. Black about 10 o'clock Friday night stated that his daughters, in company with Misses Lucy and Maude Mount, were returning from Higginsville, Mo., to Kansas City. The telegram stated that the engine had ben taken from the train at Higginsville. The Misses Mount had been visiting in Colorado. The four are expected to take the Burlington out of Kansas City for Quincy and will then travel over the Wabash to Jacksonville.

This is but one of the numerous instances of the great inconvenience caused travelers by present transportation conditions.

Legal Tangle Like Spillman Case Seen in Danger's $1,000,000 Balm Suit

EVAN BURROWES FONTAINE

By NEA Service.

SARATOGA SPRINGS, N. Y., Aug. 27—Another Stillman case?

Is that what the litigation between Evan Burrowes Fontaine, Oriental dancer and motion picture actress, and Cornelius Vanderbilt Whitney will turn out to be?

Perhaps, say lawyers, in the endless legal complications that seem likely to arise. Altho basically quite a different sort of case, it may parallel the Stillman case in the length and completexity of litigation.

Asking $1,000,000 damages for alleged breach of promise, Miss Fontaine in the formal complaint she has just filed here declares young Whitney, a college student, repeatedly promised to wed her and that she consented to the marriage.

The promise of marriage, her complaint adds, enabled Whitney to debauch and demoralize her. Whitney, will contest these statements.

Child In Case.

Later there may be drawn into the case Miss Fontaine's allegation that Whitney is the father of a child she says was born to her whom she says she christened Cornelius Vanderbilt Whitney, Jr. Whitney denies parenthood of the child.

Whitney's lawyers are making a preliminary fight to invalidate the ground of statutory limitation because of failure to follow up the summons served on young Whitney a year ago.

It is probable the Rockland county court records of the annulment of Miss Fontaine's first marriage to Sterling Adair will be dug up.

Seeks to Invalidate Marriage.

There will likely be an effort to prove, on her behalf, that her marriage to Adair was not legal because Adair was already married to another; and on Whitney's behalf that the annulment proceedings therefore were fraudulent.

The baby may be an important figure in the legal tangle.

One of the serious complications in the case is the fact that Adair is dead, having either committed suicide or been mysteriously murdered in Texas a few months after the annulment of his marriage.

Altho the suit was filed here. Miss Fontaine is in California, engaged in movie work.

ASTRAL BODIES AT BEST LAST NIGHT

Sky Phenomenon Visible From 7 Until 8 Last Night—Will Be Visible Again Tonight.

A beautiful and unusual sight was seen by many local people last evening between the hours of seven and eight. In the southwestern sky were visible the crescent moon; the planets, Venus, Jupiter, and Saturn; and Spica, a star of the first magnitude.

Altho these heavenly bodies are millions of miles apart they looked from the earth as tho they were very close together, the soft light of the moon, combined with the silvery glow of Venus and the golden stars made a very pretty spectacle.

It will be worth the while of everyone to look in to the heavens tonight and see the sight again. With the aid of small field glasses the heavenly bodies become even more beautiful. Tonight the phenomenon will not be as brilliant nor will the stars be as close together as last night, but the sight will repay a look into the southwestern sky.

HEALTH DEPARTMENT OFFICIALS COMING

Dr. Rawlings and Dr. McShane Will Visit Better Babies Conference—Dr. Nelson to Assist Dr. Brokaw.

It was announced yesterday that Dr. Isaac D. Rawlings, director of the state department of public health, and Dr. J. J. McShane, chief of the division of communicable diseases of the department, will be visitors in the city one day next week. They are coming especially to see the better babies conference in operation.

Dr. Rawlings is especially interested in the development of the public health program in Jacksonville and Morgan county ecause of its state wide significance, and also because of his earlier personal relations with the city and county.

Dr. G. C. Nelson, district superintendent of the public health department, will be here thruout the entire four days of the conference to assist in the direction of the work. This has grown to such proprtions that Dr. R. V. Brokaw, the county health officer found it difficult to handle it and it was therefore arranged for Dr. Nelson to assist him.

CUBS AND PHILLIES BREAK WORLD'S RECORD

Make 49 Runs and 51 Hits—Cubs Scored Ten Runs in Second and 14 Runs in Fourth.

CHICAGO, Aug. 25—Two world's records were shattered and two other marks were equalled in a hectic slugging match which Chicago won from Philadelphia today 26 to 23.

The total runs scored by both clubs—49—is the biggest score in a game of all time, according to records available here. On July 12, 1890, Brooklyn and Buffalo (P. L.) scored 44 runs. The previous world's mark, made since 1876 was 43 runs made in the game between Chicago and Louisville on June 29, 1897 when Chicago counted 36 and Louisville 7.

The record for the most hits by both teams since 1900 is one game also was shattered, 51 hits being made. New York and Cincinnati in the National League scored 49 hits during a contest June 9, 1901. St. Louis and Cleveland, while in the American association made 53 hits on April 30, 1887. Bases on balls at that time were counted as hits. Philadelphia outhit Chicago today 26 to 25. Callaghan equalled the world's record for the number of times to face a pitcher in one inning. He came up three times during the fourth inning batting rally of the Cubs and smashed out two hits and struckout once.

By scoring 14 runs in one inning the Cubs tied the modern major league record made by the New York Americans against Washington on July 6, 1920. They also came within four runs of tying the world's mark of 18 made in the Detroit-Chicago game of September 6, 1883.

Chicago started its first tremendous assault after two men were out and a chance to retire the side was lost when Wrightstone dropped a foul fly. Before the side was retired 10 runs had been scored. The next assault was launched by Callaghan in the fourth inning when he faced the pitcher three times in the same frame. He started with a single, and before the side was retired 14 runs had crossed the plate, the result of 11 hits, two sacrifices, a batter hit by a pitched ball, three walks and two Philadelphia errors.

Chicago appeared to have exhausted itself and played loosely in the eighth and ninth innings.

A happening unique in baseball was in the fourth inning when Barber, batting for Kaufmann scored two runs, being at bat twice actually but only one technically.

Fresh English Walnut Halves, at MERRIGAN'S

HERE FROM SEATTLE

Carl Gordon and son Arthur are here from Spokane, Wash., spending a few days with relatives and friends in Morgan and Scott counties. Mr. Gordon was for a number of years in educational work but is now associated with an architect and is carrying on extensive business in furnishing both plans and finances for new building operations. Originally the firm specialized on school buildings but is now turning its attention to general construction work.

Mr. Gordon's wife before her marriage was Miss Stella Cline of this city and the family has been resident in Seattle for a number of years.

BROWNS AND YANKEES SPLIT DOUBLE HEADER

St. Louis Wins First Game And New York Second — Both Games Are Close and Exciting.

NEW YORK, Aug. 25—New York and St. Louis Americans divided an exciting double header, the Browns winning the first game 3 to 1 and New York taking the second 6 to 5. Shocker pitched brilliantly in the opener and held New York to seven hits. Severeid knocked in the first St. Louis with a triple in the second inning while McManus' single with the bases full in the sixth drove in the winning run.

New York evened the day by winning behind Bush and Jones in the second game. Bush was hard pressed in both the eighth and ninth innings and Jones barely got thru.

Hold Three Runs Lead Until Seventh When Giants Score Three Runs—All of Cards Runs Were Homers.

ST. LOUIS, Mo., Aug. 25—After holding a three run lead seven innings all markers being made on home runs, St. Louis lost the first game of the series with New York 4 to 3. An error by Hornsby in the eighth prevented a possible double play and assisted the champions materially in winning the contest. Hornsby's clout was his thirtieth circuit drive.

Two Strong Candidates to Succeed Alexander

VIRGIL CHEEVES AND (INSERT) ANTHONY STUELAND

By BILLY EVANS

Grover Cleveland Alexander's mighty right arm will not last forever.

Nobody knows this better than Bill Killefer, who caught the Cornhusker's mystifying shoots during their youthful days and who's now said Alexander's manager.

As director of the Chicago Cubs' destinies, Killefer is looking into the future—he is looking for another Alexander.

Of course pitchers of Alexander's quality don't grow on trees.

In quest of the great hurler's successor, or of pitchers who promise to come within a mile or two of him, Killefer is "prepping" certain youngsters.

Two Strong Candidates.

Baseball experts believe he has two worthy candidates in Virgil Cheeves and Anthony Steuland.

This is Cheeves' second season with the Cubs. Steuland arrived little more than a month ago.

If Cheeves isn't careful he not only will be classed as an Alexander No. 2, but he may also find himself coveted by John J. McGraw.

In one recent series between the Cubs and the Giants Virgil performed the feat of beating the New Yorkers in the first and fourth games. In those 18 innings he allowed the world's champions only two runs and eight hits. He won the first game, 3-2, with four hits, and the second, 3-1, with four more.

Looking For Youth.

With Phil Douglas already the discard and Fred Toney a Jese Barnes growing wrinkl McGraw, like other major leag mangers, is looking for youth.

His attention turned immedia ly toward Mr. Cheeves when t individual beat him twice in f days.

Cheves is capable of those ir man stunts. He is built along lines of Ed Walsh, which spe for itself.

Steuland, living mostly in bull-pen and on the bench, br into the National League sea with a pop. He opposed the Louis Cardinals in his first ga beat them 5-0 and strung strikes around Rogers Hornsb neck the first two times league's premier son of s faced him.

EXTENSIVE SELLING IN STOCK EXCHANGE

By Associated Press..

NEW YORK, Aug. 25.—The stock market, after an early display of strength, turned decidedly heavy in the final hour today in response to extensive selling pressure exerted upon the announcement that the strike conference between certain railroad executives and brotherhood chiefs acting as mediators had been definitely broken off. Most of the day's gains were cancelled and many stocks were depressed one to two pointss below yesterdays closing quotatinss.

Liquidation was directed principally against railroad shares, steels and equipments on theory that these industries would suffer by the prolonged labor trouble, but rails offered stubborn resistance in face of an announcement by B. M. Jewell, shop crafts leader, that it would be a fight to the finish.

Stocks like Northern Pacific, Chicago & Northwestern and Atchison, which had advanced materially in the last few days, sold off more than a point while shares like Union Pacific and Erie, which were in a better technical position yielded only fractionally.

Ann Arbor preferred established a new high record but receded with the general list at the close.

United States Steel was pushed up to 105½ the highest price in two years, but sold off half a point at the close.

Call money again opened at 3⅞ per cent but hardened to four at the close. Time money was quiet with funds available for 60-90 days at 4 to 4¼ per cent.

Failure of the reparations commission to reach an agreement with the German government caused a violent decline in continental exchange rates. German marks fell to the extreme low rate of five cents a hundred and French francs fell to the extreme low record of the year.

Total sales for the day were 900,000 shares.

Liberty bonds yielded slightly. Total bond sales (par value were $12,103,000.

NO HEAVY OPERATIONS ON WHEAT MARKET

By Associated Press.

CHICAGO, Aug. 25.—Wheat prices fluctuated within narrow limits today, the market sensitive to "no heavy operations on either side." Final figures were unchanged to ⅝c higher for wheat, with September $1.01¾ to $1.01⅞ and December $1.03¼ to $1.03⅜. Corn was off ⅜ to ½c. Oats showed a gain of ⅛ to ⅜ and provisions ranged from unchanged to 15c lower.

Weakness at Liverpool and the German financial situation caused values to break at the start. The market showed considerable resistance to seling pressure and commission houses bought on the decline. The resultant advance brought out increased offerings and thereafter neither side made any decided effort to dominate the trading. Export demand was reported slow, with slight prospect of improvement. Hedging pressure was lighter than usual.

Corn was unsettled with wheat and failed to maintain some early advances, altho at one time the market was up about 1½c from the very low. Sensational crop reports were received from parts of Kansas, Nebraska and South Dakota to the effect that in some sections there would not be sufficient grain harvested for local requirements. Temperatures were lower over the corn belt with scattered rains.

Oats were dull but firmer.

Provisions were lower under scattered selling, which offset an advance in Liverpool and strength in the live hog market.

DUN'S REPORT WILL SAY TODAY

By Associated Press.

NEW YORK, Aug. 25.—Dun's tomorow will say:

"While a solid basis for commercial expansion clearly exists, progress is stil impeded by the prevailing labor unsettlement. Resumption of coal mining operations at different points has somewhat relieved the industrial tension but the continuance of the railroad strike despite negotiations for its settlement is a repressing factor. Stimulus to trade activities is to be expected as the end of summer approaches yet various uncertinties exert a restraining influence and a full measure of business development is lacking. Hesitation in entering upon important new commitments not unnaturally results from the doubts about future supplies and prices of commodities, and not a few transactions as in steel and iron are prevented by the inability of sellers to make early deliveries. With costs of production further enhanced in some industries by upward wage revisions, price increases are still being established and premiums over the regular market are readily obtainable where there is any advantage on shipments."

Weekly bank clearings $5,625,-187,000.

Movies And the Eyes

There is no evidence to prove that the "movies" are imperiling the sight of the nation. Careful investigation leads to the opposite conclusion. You may be quite certain that when your eyes trouble you while viewing moving pictures, it is due, not to the pictures, but to defective eyes which call for optometry's aid.

The person with normal eyes will not suffer at picture shows. At the very first indication of eye trouble call and let us make a careful, scientific examination of your eyes.

WAVERLY PEOPLE AT ADWELL HEARING

Interest Runs High In Assault Case of Waverly Man—Is Accused of Assaulting an Officer.

Many persons heard the case of the People vs. Sid Adwell of Waverly in Justice Opperman's court yesterday. Adwell is charged with assault with intent to kill and the hearing yesterday was a preliminary affair. A great many witnesses were heard which caused the case to run into the late afternoon.

Adwell was brought to this city after barricading himself in the Waverly jail. Officer Hagan of Waverly had attempted the arrest of the accused on a charge if disorderly conduct, but was met with resistance. Deputies from this city were called to remove the prisoner from the jail. Attorney J. Marshall Miller representing Adwell attemted to show that Adwell did not resist arrest until after he was roughly handled. State's Attorney Carl E. Robinson represented the People.

The accused was bound over to await the action of the grand jury and upon default of $1,000 bond was taken to the county jail.

FAIR WILL ISSUE NEW SEASON TICKET

Auto and Driver Ticket to be Issued—New Class Added to Premium List — Location of Concessions Given.

The board of directors of the Morgan county fair voted yesterday to issue a "car and driver" season ticket which will sell for $2.00, and which is fifty cents more than the price of a regular ticket. This ticket will admit the man with his car for the entire four days of the fair. Anyone who has a regular season ticket and wishes to exchange it for one of the auto tickets may do so by bringing the old ticket and fifty cents to the fair offices over Myers Brothers store.

A new class (92) has been added to department four. This new class will include handwoven basketry and will have the following premiums: $2.00, $1.50 and $1.00

The big grandstand has been completed and all of the large tents are up. Forty men were kept busy on the tent job all day yesterday. The electrical exhibits of the county health department arrived yesterday.

Several new horses have been entered the last day or two and are now being worked on the track. At present there are about forty race horses entered in the various racing events. The race track was dragged yesterday and is in fine shape for the big races of the fair.

Locations of Concessions

Following are the locations occupied by the various concessions and their holders' names. The long list goes to prove what a gigantic event this year's fair will be. The concessions are numbered from the east gate westwards.

South side of fairway:

Road Betterments for County Now Certain

Governor Small Gives Definite Promise That Contract Will Be Let This Fall for Hard Road to West—Morton Avenue Link and Bridge Also Assured—Wabash Subway Work Certain

Great news came to Jacksonville and Morgan county Friday afternoon with reference to the Morgar county hard road program.

Definite assurance has been given that the state department of public works will this fall let the contract for a hard road from Jocksonville west a distance of six miles.

The state department will take action immediately for the building of 500 feet of roadway necessary to connect the city pavement with the Morton avenue hard road.

The state department has an agreement almost completed with the Wabash Railroad for the building of the subway east of Arnold.

F. L. Mawson of the county board of commissioners received a telephone message from Senator John A. Wheeler Friday afternoon conveying to the board the definite promise of Governor Small and Col. Miller that bids will be received in the course of a few weeks for the construction of the road to the west. It will follow the Mound road to Point church, thence south and west to a point one-half mile north of Lynnville.

Conferences Held

Mayor E. E. Crabtree and T. M. Tomlinson as representatives of the City, the Chamber of Commerce and Morgan County Good Roads association were in Springfield Friday afternoon and in conference with Gov. Small, Col. Miller and Mr. Sheets with reference to the hard road, the Morton avenue link and the Wabash subway.

They were able following this conference to bring to Jacksonville the good tidings that all these betterments are now certain.

Thursday, County Commissioners Mawson and Wheeler with Mr. Baldwin, county superintendent of highways, went to Springfield and accompanied by Senator Wheeler met with Gov. Small and Col. Miller. At that time the matter of the hard road to the west was thoroly considered and Gov. Small indicated that favorable action would be taken. However, he said that neither he nor Col. Miller would make a definite statement until Friday.

It will be remembered that differences of opinion among land owners in Scott county with roference to the route have delayed the hard road to the west. The Morgan county men have insisted that disagreement in Scott county should not interfere with the building of the road so far as Morgan county is concerned.

Scott County Differences

There has been a feeling too that if the contract was let for the building of the road for a definite mileage and near the Scott county line, that certainly before the work was completed agreement would be reached with reference to the Scott county route. The only qualification with reference to the work in Morgan county is that the state shall have no difficulty with reference to the right of way.

Commissioner Mawson said last night: "The county board is of course delighted over the securing of a definite promise from the governor and the department of public works for this stretch of hard road. We have presented all the arguments we could and Senator Wheeler has certainly manifested a great deal of interest and has been of great service to us. The chamber of commerce activity and interest also had its weight in bringing about this greatly desired action.

When Mayor Crabtree yesterday explained to the governor, Col. Miller and Mr. Sheets the condition with reference to the Morton avenue pavement, consent was readily secured to have the state's work done now.

Mayor Crabtree agreed that the city will recall its proposal for bids for this work and very soon the state and the city will advertise at the same time for both stretches of pavement and the bridge across the Mauvaisterre. The work will be done separately but the contracts will be let the same time.

It is not certain that the Wabash subway at Arnold will be constructed this year, but the state department gave assurance that the plans have been made for the subway and the Wabash management has agreed to the plans. In fact the contracts have been drawn and the papers are now in the hands of the railroad officers.

The road betterments listed are all important and will be of great benefit to Jacksonville and Morgan county.

OUTLINES PLANS FOR FINANCING STOCK INDUSTRY

Chairman of War Finance Corporation Talks to A. N. L. A.

(By The Associated Press)

DENVER, Colo., Aug. 25—Eugene Meyer, Jr. chairman of the war finance corporation in an address before the American National Livestock association today outlined his proposals for the permanent financing of the livestock industry. He promised all the aid within his power, and suggested that a special committee of the associaiton take up the subject with a view to financing the industry adequately.

Mr. Meyer explained that the war finance corporation was only a temporary organization and that its purpose was simply to meet an emergency.

"The activities of the war finance corporation" said Mr. Meyerer, "and the condition of the livestock industry has shown the necessity of some plan that will take care of cattle from the breeding time to their maturity. There have been a number of plans proposed.

"The Capper bill in the senate and the McFadden bill in the house are two measures aimed at a solution of the problem. These bills propose cattle loan companies that could issue securities on cattle and would result in bringing out more money for the industry.

"Congress also has a plan for continuing the war finance corporation under another designation but I do not believe this is practicable for a permanent relief. If we can finance the industry thru regular channels it will be not only practical but far more satisfactory."

BERDAN MAN PATIENT AT HOSPITAL HERE

William Hiller of Berdan is a patient at Our Savior's hospital as the result of a revolver wound in his leg. Dr. Royle of Berdan brought Hiller here and he is under the care of Dr. W. P. Duncan. The bone in the leg was shattered by the bullet and the man's injuries are of a series kind

According to the story, Hillis, who is forty-two years of age, was shot late Thursday afternoon by his housekeeper, Mrs. Brakeville. The first shot struck a belt he was wearing and glanced off, a second shot causing the injuries mentioned.

Details of events leading to the shooting have not been secured but it is understood that no warrant has been issued for Mrs. Brakeville.

QUINCY MAN TALKED TO ROTARY CLUB

Mr. Irwin Gave Interesting Facts About Work With Boys In His Home City—Special Musical Program.

Leaton Irwin of Quincy gave a talk at the Friday luncheon of the Kiwanis club, in which he told something about the work done for boys by the club in the Gem City. The chautauqua quartet, Mrs. Abe Weihl, Mr. and Mrs. Hackett Wilder and Terrance J. Brennan, sang several numbers with Willard Wesner as accompanist. The quartet numbers were of varying kind and displayed to advantage the fine ability of the musicians. The rotarians wore enthusiastic over the program.

Another musical number was possible thru the presence of J. Herbert Colton of Minot, N. D. Mr. Colton sang very efectively Harry Lauder's Rotary song, the members of the club joining in the chorus.

Other guests of the day were C. L. Mesurier of Chicago, J. N. Conover, Jewill Scott of Jacksonville; Chester Colton of Woodson.

Mr. Irwin is president of the Irwin Paper Co. of Quincy and identified with other business enterprises of the Rotary club and altho he did not tell Rotarians yesterday, it is understood that he gave the money that made possible the purchase of camping grounds for the use of Boy Scouts and other organizations. The tract of about 20 acres is located a few miles from Quincy and suitable buildings are being erected.

Mr. Irwin told some of the experiences of Quincy Rotarians who accepted the guardianship of boys who had come under the jurisdiction of Quincy courts. The statements he made gave ample proof of the worth while work that the Quincy Rotary club is doing along this line of building citizenship.
